

**Isaias26:3**

*You will keep in perfect peace those whose minds are steadfast, because they trust in you.*

## Salud que transforma Update

# 2020

# Activities

*We thank God for every patient that attends to our clinic and for every patient that we can reach in the communities*

**During the month of february we had a total of 474 patients, from wich 322 are female and 152 are male patients**

Dental Cavities	94
Upper Respiratory infection	71
Family Planning	50
Prenatal Care	46
Skeletal muscle problems	38
Urinary infection	25
Diabetes	18
Peptic disease	10
Arterial hypertension	4
Myopia	3
Others	115

## Brenda Azucena Valle Arana

*We deliver a “Hand Bike” for people with disabilities*

**“Doña Brenda” had a motorcycle accident. She was stroke by a bus that force her to move, crashing at a house wall wich result in serious injurys and the lost of her right leg.**

“Doña Brenda” has 2 daughters and to support them she works making tortillas.

The vehicle is called “Hand Bike” and is made of wood

His place of work is about 2 km and in the area where she lives there is no transportation to that place, so she needs to find a way to get to this place.

**A generous person will prosper; whoever refreshes others will be refreshed.**

**Proverbs 11:25**

It has a comfortable seat and under the seat there is a box so that when she goes shopping or to the market, she can take the things she has bought there

We thank God for the Vine International organization that has supported us with the case of “Doña Brenda” and has provided us with a vehicle to facilitate their transportation. It is something similar to a Bicycle but the movement is done with the hands

We thank all those who in one way or another allow us to support and serve people like Brenda Valle, in order to provide them with a better quality of life. God is good all the time.

# Patients by different area of speciality

As for the areas of patient care, thank God we are working 5 areas:

General Medicine 303  
 Dental 94  
 Optometry 19  
 Physiotherapy 48  
 EKG 10

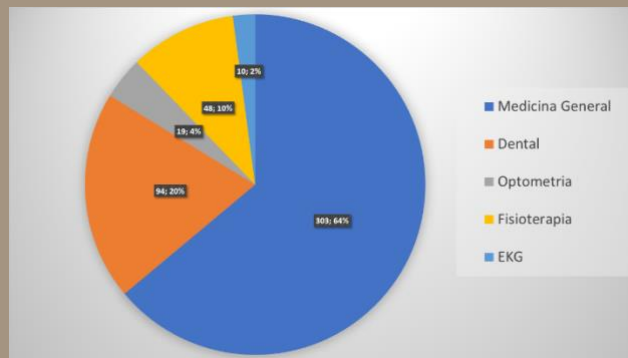

## School Education

During this month we also started our health education and Bible class talks in public schools.

We are visiting 3 schools:

- Farmhouse 300 children
- Agrochemical 1000 children
- The Illusions 200 children

The largest group of Patients is General Medicine, followed by Dental and Physiotherapy.

## Communities we visited in February

We are reaching those communities that can't be reached by private or public health care system. We attended patients in 4 villages of Quiche and 3 from the south area of Escuintla

### MS. JULIA

God keeps supporting our social development area in the clinic. We are buying furniture for Ms Julia's house.

## Nursing School

Thank God our nursing school continues to work and provide training opportunities to people looking for an opportunity to .

Currently we have 17 students, of which 7 have a student scholarship.
